

## BIORACULOUS™

**20 Servings of Fruits and Vegetables in EVERY 6 Ounce Serving!  
No Grass Clippings or Sludge Pond Taste!**

The most exciting *whole food green drink* that has ever been produced. With over 5000 “ORAC” value in every scoop, it’s a quick and easy way to boost your immune system and get the fruits and vegetables you need. Bioraculous tastes great and is incredibly good for you.

ORAC means Oxygen Radical Absorbance Capacity. It is a scientific measure of the overall power of a food to reduce free radical activity. Free Radicals are molecules that are missing electrons. They are radical in their behavior as they seek to snatch other electrons from where ever they can, damaging body organs.

Bioraculous is an amazing product, for both adults and children. This is a product with no:

- *“fractionated synthetic vitamins”* (vitamins that the body cannot use)
- *artificial flavors or chemical sweeteners.*
- *added sugar, fructose, sucralose or corn syrup*
- *binders, fillers or flow additives*
- *magnesium stearate, vegetable gum or titanium dioxide*

Just good food that mixes into water and tastes great. An amazing mixture of greens and berries!

### Ordering Information and Price

One can of Bioraculous is \$34 and contains 30 servings, which is enough for a month.

**Ordering Bioraculous is easy.** Neurowellness has an ADP- automatic deliver program with free shipping, or you can order each month by phone.
